ATHARVA KHALADKAR

Pune, India | +91 9518523850 | atharva.khaladkar30@gmail.com | GitHub | LinkedIn | LeetCode

Profile Summary

A final year Master's student with front-end development skills in ReactJS with strengths in problem solving and teamwork. Motivated to contribute to real-world and grow as a software developer.

Skills

- **Languages**: C/C++, Haskell, Bash Script
- **Web Technologies**: ReactJS, JavaScript
- **Tools**: Visual Studio Code, Figma, Github, Vercel, ClickUp, Postman
- **Operating Systems**: Linux (Ubuntu,Kali), Windows

Education

- **M.Sc Scientific Computing |** Savitribai Phule Pune University, Pune *2024-present*

SGPA: 8.45

- **B.Sc Computer Science |** Kaveri College, SPPU *2019-2022*

CGPA: 9.56

- **HSC Science |** M.E.S. Bal Shikshan Mandir English Medium School *2017-2019*

Percentage: 69.08 %

- **SSC |** Abhinav VIdyalay Marathi Med High School *2016-2017*

Percentage: 89 %

Projects

1. AgriVision – E-Commerce Web App

Duration : July 24 - May 25 | **Team Size:** 3

Tech: React.js, Java Spring Boot, MySQL, GitHub, Vercel, Render, ClickUp.

Responsibilities:

AgriVision is a React-based e-commerce platform for farmers, to purchase agricultural products and manage crop health.

- Developed a responsive React-based e-commerce UI.
- Category-based and keyword search.
- Reusable components for wish-list and cart management.
- Connected frontend with Spring Boot RESTful APIs.
- Implemented product review and rating system.

2. Numerical Computing Library using C++

Duration : Jan 25 - May 25 | **Team Size:** 1

Tech: C++, Visual Studio Code.

Description:

Developed a modular and reusable library to support:

- Basic operations: addition, subtraction, multiplication, transposition.
- Solving system of linear equations using Gaussian Elimination, Gauss-Jacobi, Gauss-Siedel and LU decomposition (Crout's, Dolittle's, Cholesky's) which can be used even for 256x256 matrix.
- Root-Finding Algorithms: Bisection Method, Newton-Raphson, Fixed Point.
- Interpolation & Curve Fitting Techniques: Least Square Fit, Parabola Fit, Exponential Fit, Lagrange interpolation.
