SUMMARY

M.Sc. student with fundamentals in programming, Data Structures, Algorithms, and Object-Oriented Programming.

EDUCATION

M.Sc. Scientific Computing Present-2026

Department of SCMS-SPPU, Pune
SGPA : 6.00

B.Sc. Computer Science 2021-2024

PVP College, AhilyaNagar
CGPA: 8.73

HSC 2019-2021

MG Vidyalaya, AhilyaNagar
Percentage:80%

SSC 2018-2019

Good Shepherd School, AhilyaNagar
Percentage:80%

TECH-SKILLS

- **Languages :** C,C++
- **Web Technologies :** ReactJS, JavaScript CSS3, HTML5
- **Tools and Databases :** Visual Studio Code, Git, Github,Figma, MySQL
- **Deployment :** Netlify,Vercel,Render

ACADEMIC PROJECTS

I.HomeyBites **July 2024-May 2025**
Team Size:3
Tech Stack: React JS, JavaScript, Axios, Java Springboot, MySQL

- Built a responsive meal subscription website where users can browse menus, manage their cart, and place orders for home-cooked food
- Implemented user login/signup, profile management, and dynamic cart functionality.
- Integrated backend with MySQL to store user data, subscriptions, and order history securely.
- Responsible for building the complete frontend using React JS, including user interface, navigation, and integration with backend APIs.

II. Numerical Computing Library **Jan 2025-April 2025**
Team Size : 1
Tech Stack:C++

- Built a C++ numerical computing library from scratch to perform matrix operations and solve equations using methods like Gaussian elimination and LU decomposition.
- Supported large matrix sizes of 225X225 and 49X49

III. Gold Jewellery Website **August 2023-May 2024**
Team Size : 4
Tech Stack: HTML, CSS, JavaScript

- Designed a simple, attractive website to display gold jewellery items.
- Used basic HTML and CSS for layout, design, and mobile-friendly pages.
- Added basic JavaScript for interactive features like image sliders and dynamic content display.
