SUMMARY

Skilled in backend development, JWT authentication, and responsive frontend design using HTML, CSS, and JavaScript, with a focus on building scalable web applications. Strong foundation in algorithms, numerical computing, and OOP development.

Technical Skills

- **Languages :** C, C++ , Java
- **Frontend :** HTML, CSS, JavaScript, Context API
- **Backend :** Spring Boot , REST APIs, JWT Authentication, Spring MVC, Spring Data JPA
- **Database :** MySQL - Schema Design, Hibernate ORM
- **Tools :** GitHub, Postman, VS Code, CMake, Clickup, Trello, Canva, Jupyter , Latex
- **Operating System :** Linux(ubuntu), Windows

ACADEMIC PROJECT

FarmFeed - Full Stack E-Commerce Web Application

Team size : 3 | Duration : 2025 -26 | GitHubRepo

Tech Stack : SpringBoot, REST APIs, JWT, MySQL, HTML, CSS, JavaScript, GitHub

- An e-commerce platform connecting farmers & fertilizer shopkeepers for buying/selling agricultural products. Designed system architecture using UML diagrams and created UI prototypes in Figma (project idea initiated by me)
- Developed 14+ REST APIs with Spring Boot & JWT authentication; designed MySQL schema for users, products & orders.
- Built a responsive frontend using HTML, CSS, and JavaScript, implementing key features such as product listing, product search, add-to-cart, login, registration, forgot password, vendor dashboard, checkout, and order history.

Numerical Computing Library - Academic

Team size: 1 | Duration : Jan 23 - May 20 (2026) | GitHubRepo

Tech Stack: C++, OOP, Algorithms, Numerical Methods, Data Structures

- Built multiple C++ projects as part of M.Sc. in Scientific Computing, focusing on algorithms, mathematics, and software design.
- Developed static and dynamic libraries implementing mathematical algorithms such as interpolation, integration, and root-finding.
- Applied OOP concepts including inheritance, encapsulation, polymorphism, constructors, destructors, and pure virtual functions, along with Makefiles.
- Built matrix creation, multiplication, transpose, and determinant computation with OOP design.

Education

M.Sc. Scientific Computing, Modeling and Simulation | Jun 2025 – Apr 2027 (Pursuing)
Savitribai Phule Pune University, Pune

B.Sc.(Computer Science) | CGPA : 7.07 | Jun 2022 – Apr 2025
M.S.G. College Malegaon, Nashik | Savitribai Phule Pune University

HSC | 79% | 2022 | and | SSC | 2020 | 88%
K.B.H Vidhyalay & M.S.G. College | Malegaon | Nashik India

Soft Skills

- Teamwork | Problem Solving | Communication | Creativity
