Siddhi Lagad

9284652787 | siddhilagad18@gmail.com | github.com/siddhilagad | Pune, Maharashtra

Technical Skills

Programming Languages	C, C++, Python
Web Technologies	React.js,Html,Css
Backend	Node.js
Database	MySQL
Version Control	Git
Tools & IDEs	VS Code, MySQL Workbench, Figma, Canva, Cursor, Trello, NotebookLM, Copilot, Google Antigravity
Operating Systems	Windows, Linux (Ubuntu)

Education

Degree	Specialisation	Institution / Board	Year
M.Sc.	Scientific Computing	Savitribai Phule Pune University	2025 – 2027
B.Sc.	Computer Science	Wadia College, SPPU, Pune	2021 – 2024

Projects

BlinkLearn

GitHub

Duration: Aug 2025 – May 2026 **Team Size:** 3 Members

Tech Stack: React.js, Node.js, MySQL

Description:

BlinkLearn is an E-Learning Platform with short and engaging video lessons where tutors can create and manage courses . It supports both free and paid courses, and has a built-in chat feature so tutors and learners can communicate directly with each other.

Responsibilities:

- Designed the frontend UI using Figma and implemented it using React.js.
- Created UML diagram using draw.io.
- Collaborated in a team of 3 using Git for version control and Trello for agile task management.

Numerical Computing Library

GitHub

Duration: Jan–Nov 2026 **Team Size:** Individual Project

Tech Stack: C++, OOP

Description:

This is a C++ library that performs common matrix operations and numerical methods. It was built as part of academic coursework and is designed using OOP so that each part of the code is easy to reuse and extend for different problems.

Responsibilities:

- Built a root-finding class with Newton-Raphson, Fixed-Point Iteration, and Bisection Method.
- Implemented a matrix class with Gaussian Elimination, Gauss-Jordan, Gauss-Seidel, LU Decomposition, determinant, and inverse.
